PLAN FOURTH OF JULY CELEBRATION IN 1927

It has been the custom throughout San Mateo county for the past twenty years that one municipality each year stage a big Fourth of July celebration and invite the people of all the other towns in the county to attend. This year Half Moon Bay is requesting the attendance of the residents of San Mateo county at the celebration to be held in that town.

Trustee A. J. Bodien proposed at the meeting of the board of trustees Monday night that as a part of the work of the publicity committee, of which he is chairman, that Daly City step forth in 1927 and be the host to the residents of San Mateo county at a celebration of Independence Day.

It is about eighteen years since the last time we showed our wares on the Fourth, and it would seem we are somewhat behind in our schedule as the host in the celebration of the Fourth of July.

Trustee Bodien's proposal was that the celebration be in the form of a two day festival, over July 3 and 4, the Fourth being on Monday. Every organization, church, lodge and school throughout our city is invited to participate. Each organization is requested to send two delegates to a meeting which will be held in the City Hall within the month. The date will be given in next week's Record. Watch for it.

The delegates will be formed into an association, with the necessary officers, to put over the affair. The association will cease on the completion of the festivities.

It is proposed that a mammoth parade be held, with every organization, church, lodge and school in our city represented. The city will be decorated from southern limit to the county line.

Outside organizations will be invited to join in our parade. Notables from all over the state will attend. Prizes will be awarded for the best organizations and stunts. In short, it will be the biggest thing that Daly City has ever attempted.

During the entire year's time between now and the Fourth of July, 1927, the work will go forward in the perfection and the completion of all the plans for this celebration. It will be advertised all over the state, and broadcast from all the larger stations by radio.

It is expected to make Daly City known to every resident of the state and known in a favorable light.

In order that this proposition may be a success, it needs your backing. Be sure that your organization, lodge, church or school elects its two delegates. Have them attend the meeting in the City Hall, when the date is announced. Make it a living issue and a succesful one.

July 4, 1927, must go down in Daly City's history as a red letter day of days.

NATIVE DAUGHTERS INITIATE LARGE CLASS OF CANDIDATES

At a well attended meeting of El Carmelo Parlor No. 181, Native Daughters of the Golden West, on Wednesday evening last, a class of candidates were initiated into the Parlor. Following the ritualistic ceremonies, refreshments were served in the banquet room of Masonic Hall and all enjoyed a delightful evening.

On Saturday afternoon, June 26, many members of the Parlor will observe Hospital Day by visiting the disabled veterans in the ward of the base hospital in Palo Alto. They will distribute "joy packages" containing cigarettes, home-made cookies and candy. A word of personal greeting and good cheer will help to make the day a happy one for the "boys," who look forward to these visits from the Native Daughters. Miss Alice Mathias is chairman of the Veteran Welfare committee of El Carmelo, and all the members respond generously to this worthy cause.

There will be no whist party during the month of July, as many of El Carmelo's members will be away on vacations.

DEATH OF MRS. STELLA PLOUGH

Mrs. Stella B. Plough, beloved wife of Orville Plough, and loving mother of Virginia and Kenneth Plough, passed away at her home on Golden Gate avenue, San Francisco, Wednesday evening, June 9, after an illness of several months. Funeral services were held Friday at 3 p. m., with interment in Cypress Lawn cemetery. In addition to her immediate family she leaves to mourn her loss a host of friends who extend their sincere sympathy to the bereaved family in their time of sorrow. Mrs. Plough was a resident of Daly City for a number of years and had many friends here.

EAGLES ADVERTISE CITY ON CONVENTION TRIP

The members of Colma-Vista Grande Aerie No. 1848, Fraternal Order of Eagles, are always boosting for their home town. On their recent trip to the convention in Yosemite Valley they continued this practice, as is evidenced by the following communication:

Editor Daly City Record:

The delegates and drum corps of the Fraternal Order of Eagles of Daly City have arrived home safely, after spending one of the finest annual convention weeks given by our order. It was held in the Yosemite Valley. Our drum corps, after six weeks of intensive practice, were gratefully rewarded by being able to bring home the first prize for drum corps, making 95 per cent in the competition.

Delegates, the corps and friends in our party totaled forty, who all wore ribbons which bore the inscription "Visit Daly City." This novel idea proved quite a hit, being sponsored by City Trustee A. J. Bodien.

On arriving at the valley, during this season of the year, found it in all its splendor and brilliancy of color. The falls and lakes were at their best. Accommodations were good, and a fine time was had by all, everyone arriving home singing the praises of the wonders and beauties of our great state.

We again place ourselves at the disposal of our city, ready to partake in any progressive movement which it may undertake.

Again we wish to thank the people and members of the order who so ably helped to make our trip a wonderful success and an everlasting memory.

Sincerely
GEORGE CONNOLLY.

Drum Major Colma-Vista Grande Drum Corps.

MUSICAL PROGRAM AT GRACE PRESBYTERIAN

Next Sunday evening the local Chapter of De Molay boys will attend the services at Grace Presbyterian church, Hanover and Evergreen, in a body, and the community is invited to come and help give this noble band of young men a royal welcome.

On Sunday evening at 8 o'clock the pastor, Rev. Chas. H. Gatchell, will speak from the subject, "Are We Slaves or Free, Tied or Loose," being a strong and urgent call to the Protestant people of this part of the city to help to put across a real program of righteousness. Special music and a good time is assured.

Last Sunday evening the church auditorium was filled, and the congregation listened to the excellent program of music put on by the congregation and pastor of the Oceanview Congregational church. We can not overstate our appreciation of the splendid numbers brought by this band of musicians. It was indeed a most edifying service, and we can say that we will be glad for a second service of the same kind. Many said on leaving the auditorium that it was a real spiritual uplift. Come again.

Next Wednesday at noon the Associated Manufacturers of the city will hold a four course luncheon at the Grace church, and all are invited to attend this gathering.

There will be a daily vacation bible school held at the church beginning June 21, at 9 o'clock, and all children are invited to come and enjoy this period of recreation and fun with us. The sessions will begin at 9 and close at 11:15.

Next Sunday morning Mr. Gatchell will speak at the Oceanview Congregational church on "The Condition of Women and Children at Palestine and Egypt" as he saw them.

SUSPENDED SENTENCE GIVEN YOUTH ON FATHER'S PLEA

The plea of the aged father who did not want to see his son go to jail for a second time won leniency for John Rose, 22-year-old Colma youth, when the latter appeared in the court of Justice of the Peace Ellis C. Johnson, on Wednesday, on the charge of malicious mischief. Rose had been arrested by Constable S. A. Landini after he is alleged to have kicked in the door of a Colma restaurant.

Young Rose was recently released from jail in San Francisco after serving a sentence for reckless driving. His aged father implored Judge Johnson to give the son one more chance, and the jurist consented after the restaurant owner declared he did not desire to prosecute.

A six months' sentence was imposed by Judge Johnson, but was suspended on condition that Rose leave San Mateo county without delay. The aged father promised the court that his son would leave immediately for other parts.

PROPERTY OWNERS TO WAGE WAR ON WEEDS

At the meeting of the Daly City board of trustees last Monday night, two of the members, H. H. Smith and T. F. O'Rourk, were absent. Mayor Smith is on his vacation, while Mr. O'Rourk was ill.

Due to the absence of City Clerk B. C, Ross, who is also on a vacation, Trustee Sundermann acted as clerk while T. F. Moran was chairman for the evening.

The weed ordinance was brought up for protests, but no protests were presented. The ordinance will become effective immediately and work will be started at once. This means that weeds must be cleared from all lots within the city limits.

A communication was received from Fire Marshal Rickman, stating that fireworks were being sold in Daly City contrary to law. The enforcement of the law to the limit was ordered in order to make this a "safe and sane Fourth." Communications have been sent to the county board of supervisors, asking that the sale of fireworks on Mission street below the high school be stopped.

Marshal Doyle gave an excellent report of the destruction of condemned shacks. Seven are now being torn down, and a number of others will be wrecked in the near future, when the necessary legal proceedure has been completed.

Trustee A. J. Bodien, as chairman of the park committee, gave notice that the cord-wood must be cleared from the park within two weeks, preparatory to several desirable improvements.

Several residents present asked for permission to make improvements on shacks, but were advised to await the findings of the building committee.

At the conclusion of the meeting, Trustee A. J. Bodien, chairman of the publicity comittee, outlined plans for a monster Fourth of July celebration for 1927.

JEFFERSON HIGH ALUMNI ASSOCIATION ORGANIZED

The newly organized Alumni Association of Jefferson Union High held its first meeting last Wednesday evening at the home of Mrs. B. Tuttle of San Francisco.

The meeting was called to order by Marc Worst of June '25. After an outline of the alumni organization, the election of officers was held, the officers chosen being as follows: President, Albert Saarinen, of June '26; Vice-President, Rae Wolfe, of June '26; Secretary, Edna Hooton, of June '26; Treasurer, Harold Fischer, of June '26.

A constitution committee was appointed, consisting of Rosa Bauer, Mildred Ross, Edward Goldkuhl, all of June '26, and Marc Worst, chairman.

In recognition of her untiring efforts and hard work for the class of June '26 during their Junior year, Mrs. Tuttle, former English teacher of Jefferson high and now head debating coach of Commerce high, was unanimously elected adult advisor for the association.

It was decided that the association will repeat Jefferson high's great dramatic sucess, "The Dutch Detective," in the near future. Marc Worst was apointed business manager for the production and instructed to make provisions for its showing at the various San Mateo county high schools.

The meeting was followed by delightful refreshments.

DALY CITY YOUTH HAS CLOSE CALL FROM DEATH BY FIRE

Archie Block, 16, of 6486 Mission street, is alive today because he is a fast thinker, and acts as fast as he thinks.

Archie struck a match as he entered the cleaning room of the Hudson Bay Fur Company, 272 Post street, San Francisco, on Tuesday, after employes had been using gasoline. An explosion followed and Archie was hurled with considerable force across the room, his clothing catching fire.

Archie was somewhat dazed, but his thinking apparatus was functioning perfectly. Immediately grabbing a fire extinguisher from the wall, he played the chemicals on his clothing and then turned the steam on the burning woodwork in the room. He was taken to Franklin hospital, suffering from burns on the face, arms and chest. But for his presence of mind he would probably have lost his life.

The Daly City baseball team suffered defeat at the hands of the fast Fontana Food Products team at Jackson playgrounds on Sunday. The game was marred for the locals by two bad innings, the fifth and the ninth. The score was 7 to 1.

VOTERS OF COUNTY URGED TO REGISTER

With the time for registration for the primary election on August 31 dwindling from months into weeks, and with a great percentage of the county voters unregistered, County Clerk Elizabeth M. Kneese has appealed to the citizens to have their names inscribed on the great register immediately.

"The primary election on August 31 will be one of the most important in the history of the county and the state," declared Mrs Kneese, "and it is the duty of every citizen to be registered as a voter. My office is doing everything possible to facilitate the registration of voters, and I have deputized a great number of registration clerks throughout the county for the convenience of the people."

The registration deputies for this immediate vicinity are as follows:

Daly City

Ellis C. Johnson, City Hall.
Mrs. Ella McKee, 79 Irvington street.
Mrs. May E Hawkins, 139 Knowles avenue.
John J. Fahey, 6248 Mission street.
Mrs. Ida Preston, 209 Woodrow street.
B. C. Ros, City Hall.
Mrs. Catherine Reinhart, 1056 Brunswick street.

Colma and Lawndale

A. Stampanoni, Colma.
Phil Fahy, Colma.
E. A. Weisenburger, Lawndale.

MANY ORGANIZATIONS ARE SUPPORTING BRIDGE PROJECT

Many organizations have signified their intention of supporting the application of Frank Towns for a permit to construct a bridge across the bay, when the war department conducts a hearing on the application within thirty days. The Burlingame chamber of commerce is the most recent body to support the Towns movement. The members approved it after being addressed by John J. McGrath, former president of the Three Cities chamber of commerce and a consistent worker for a trans-bay span at Little Coyote Point. Among the other organizations before which McGrath appeared and whose co-operation he has secured are the Burlingame trustees, San Mateo council, South San Francisco council, San Bruno trustees and the San Mateo Heights Improvement Club.

STUDENT ESCAPES PRISON BY NAMING BOOTLEGGER

On condition that he reveal the source of liquor obtained by him shortly before an accident at Atherton last week, Y. M. Monroe, 22-year-old Student of Stanford, who faced charges of driving an automobile while intoxicated, won probation in the Superior Court at Redwood City on Tuesday when he appeared for sentence.

Shortly after the granting of probation to Monroe, officers obtained a search warrant for an establishment at Woodside known as "French's Place." A deputy sheriff placed Mat Mangini, found in charge of the place, under arrest on the charge of selling liquor.

HALF MOON BAY FIREMEN WILL PURCHASE ENGINE

Purchase of an American La France combination chemical and pumper fire engine was voted by members of the Half Moon Bay volunteer fire department at a recent meeting. The engine will cost $6,750. The fire department also decided to take charge of the Fourth of July celebration to be held in Half Moon Bay this year. They were assured music for the affair by various organizations, and tentative plans were shaped.

"MUSHROOM KING" FILES SUIT AS RESULT OF AUTO CRASH

Joseph S. Coste, of Belmont, the "mushroom king" of San Mateo county, brought suit for $6,000 damages in an action filed at Redwood City against Almond Johnson, also a resident of Belmont. Riding in Johnson's car last January, Coste was thrown out during an accident and suffered serious injuries, he alleges. He asks $5,000 for the injuries and $1,000 for loss suffered to his mushroom crop as a result of neglect during the time he was unable to work.

Heads State Managers' Association

City Manager O. F. Weissgerber, San Mateo, was elected president of the northern branch of the City Managers' Association of California at a meeting in Berkeley last Saturday, attended by eleven managers of Northern California cities. The jurisdiction of the north district includes sixteen cities under the manager form of government.

CONGRESSMAN FLAHERTY ANSWERS FINAL SUMMONS

Congressman Lawrence J. Flaherty, of San Francisco, a native of San Mateo county, and for many years prominent labor leader, died in New York on Monday, following an illness of several weeks.

Congressman Flaherty was 47 years old, a son of the late Mr. and Mrs. M. J. Flaherty of San Mateo, and was educated in the first grammar school of the city. He later attended schools in San Francisco, but went to work as a lad at the Union Iron Works in San Francsco. It was the era when concrete construction was beginning to be widely adopted, and the boy became interested in the new process of building, an industry which claimed his attention for many years. He retained a life long membership in the Cement Workers' Union No. 580, San Francisco.

He was elected to the legislature in 1914 and served eight years. He was later president of the San Francisco Building Trades Council, and before that a member of the San Francisco police commission. He also served as U. S. surveyor of customs under appointment of President Harding, for years a close personal friend. For more than twenty years while "Larry" Flaherty directed the affairs of the cement workers in San Francisco, there was never a strike.

Almost his first illness came in January, 1925, when he was operated on in San Francisco following an attack of intestinal trouble. He insisted on attending the first congressional session, March 4, despite his condition, which it is believed by his friends weakened his resistance to further illness.

His death leaves a vacancy that can be filled only be election for the remainder of his term, which expires next March. Either a special election must be called or a successor chosen on the ballot next November.

PLAN THE PROMOTION OF DAIRY RANCHES ON COAST

Plans for promotion of the dairy interests on the coastside of San Mateo county were formulated Monday night at the regular meeting of the Coastside Civic Union, held at La Honda. A committee composed of R. W. Krovitsch, George W. Fry, Horace Nelson, H. L. Martini and Edgar Shaw was named to thoroughly investigate the possibility of bringing more dairy ranches to the district.

The attention of the Union was called to the fact that the National Automobile Club is trying to promote a coast highway to stretch from San Diego to Canada. The secretary was instructed to bring to the attention of the club the fact that the right-of-way of the now defunct Ocean Shore railroad would make an ideal link in the proposed new roadway.

The Union voted to award $50 to the person who submits the best slogan to be used in boosting the road route down the Peninsula and back to San Francisco through La Honda, Half Moon Bay and up the coast route. Slogans should be mailed to the slogan committee, care of Secretary R. Guy Smith, Moss Beach.

A membership in the recently organized Peninsula Development Association was taken out by the Union, and Dr. C. V. Thompson, of Pescadero, was authorized to represent the Union in the association's deliberations.

San Carlos Girl Burned by Steam

Miss Cora Burnett, of San Carlos, and Miss Vera Strotmeyer, of San Francisco, were severely burned about the face and hands on Sunday when they removed a radiator cap from an automobile driven by the San Francisco girl. The accident happened on the Kings Mountain road when the young women undertook to fill the radiator of the car with water.

San Mateo County Man Honored

Ernest H. Werder, for many years purchasing agent of San Mateo county, was elected president of the California State, County and Municipal Purchasing Agents' Association at the convention meeting held last Friday at Los Angeles. Leonard S. Levy, San Francisco purchasing agent, was chosen vice-president, and A. A. Horton, Santa Cruz, secretary-treasurer.

Million Feet of Lumber Burned

Fire belived to have been caused by spotaneous combustion destroyed 1,000,000 feet of timber Tuesday night at the saw mill of the California Investment and Novelty Company in the Alpine district near La Honda. The loss represents about three months' supply of timber for the saws, according to oficials of the company.

CALIFORNIA LISTED FOURTH IN WEALTH

Though the quest for yellow metal no longer ranks as the state's leading industry, California is far more a land of gold today than ever before in its history, acording to a report just released by State Treasurer Charles G. Johnson.

Listed as eighth in population, the state has climbed to fourth place in wealth, outranking all rivals except New York, Ohio and Pennsylvania.

The treasurers' report gave the assessed valuation of all California property as $6,657,797,880, indicating a real value in excess of twelve billion dollars.

New York, which topped the list of states, reported an assessed valuation of $16,233,3729,387. Ohio was second with $10,918,868,619, and Pennsylvania third with $10,279,786,485.

California's nearest competitor for fourth place was Massachusetts, with an assessed valuation of $6,295,844,432. Michigan came next in line, followed by Indiana, Wisconsin and Illinois in order.

Real property in California was given an assessed valuation of $5,607,858,340, and personal property was placed at $1,049,939,540.

Californai ranked tenth in the nation in assessed valuation per capita, the assessed value per person being $1,725.18, against an average of $1,180.58 in the country at large.

As further indication of the state's wealth, Treasurer Johnson called special attention in his report to the fact that only two states besides California have escaped the necessity of levying a general property tax.

In cash assets and property of the state government, California stands seventh highest, with a total of $150,084,408, of which $83,953,492 is invested in state-owned property.

Treasurer Johnson placed California third highest in yearly investments in highways, with an anual outlay of $8,607,632. The state stood third in expenditures for schools, second in the amount spent for the development of agriculture, and fifth in appropriations for hospitals, charities and correctional institutions.

HALF MOON BAY WILL CELEBRATE ON THE FOURTH

Residents of San Mateo county are invited to celebrate the Fourth of July at Half Moon Bay, where preparations are being made for a great celebration of Independence Day. The volunteer firemen of Half Moon Bay have decided to take charge of the affair, and an excellent program is being prepared, according to the news that comes from that town. A parade will be held Monday, and the South San Francisco band will lead the line of march. Following the parade, short exercises will be held, to be followed by a free barbecue under the auspices of the I. D. E. S.

Dances will be held Saturday evening, Sunday afternoon and Monday, acording to the plans. The Goodrich-Silvertone orchestra will provide the music Saturday night and Monday, and the California orchestra of Half Moon Bay will play for the dancers Sunday afternon.

INCORPORATION MOVEMENT LAUNCHED AT BELMONT

Plans for incorporation of Belmont are to be presented at a mass meeting to be held in that community on June 30, as a result of a meeting Tuesday night of the Belmont sanitary board, at which preliminary arrangements were presented and a vote taken on the incorporation proposal. The vote, representing the sentiment of twenty-seven leading property owners of the community, was unanimous for incorporation.

Suggestions for the proposed boundaries of the incorporated city were given, and County Engineer Kneese is to prepare a map which will be presented to the mass meeting June 30, it was announced. Benefits of incorporation for the Belmont area were outlined at the meeting, with regard to sewer and water facilities, streets and other improvements.

TAX EXEMPTION PLEAS MUST BE FILED BEFORE JULY FIFTH

War veterans desiring tax exemptions are urged to file applications for such exemption before the first Monday in July, otherwise they are automatically by law shut out from enjoying the privilege extended in this regard. War veterans honorably discharged are entitled to an exemption of $1,000 from the assessed value of their property where such valuation does not exceed $5,000 net worth. To obtain this exemption they must file an application for it by appearing in person and presenting discharge certificates.

AUTO CAMPS OF THE WEST INVITE MOTOR TRAVELER

"Camping de Luxe," the lead article in the July issue of Sunset, makes us more than ever impatient for the arrival of our annual two weeks' vacation. We are eager to sample for ourselves the delights of those modern roadside caravansaries, the municipal automobile camps, so entertainingly described by the author of the article, D. R. Lane. In these well-planned and perfectly appointed camps Mr. Lane perceives a symbol of the new West, wherein the hardships that once accompanied travel on the open road are no more.

"For the day is past," says Mr. Lane, "when a motorist, stopping to spend the night, need put up with the rough ground for a mattress, two boulders for a fireplace and a brook half a mile away for a water supply. The camper does not have to rough it any more. He does not have to make light of hardships. He does not have to endure dirt and smells and grimy clothes.

"Cities everywhere in the West have provided him with facilities for decent comfort whenever and wherever he stops. More than that, they have found that giving hte motor traveler decency and comfort, and even luxury, is a sound business proposition. It pays.

"Nowadays the camp which does not provide good, serviceable cooking facilities, tables and seats, shower baths with hot water and laundries with modern stationary tubs, is an exception, almost a back number. Many of them provide tub baths as well as showers, and washing machines as well as porcelain tubs, for the free use of their guests. Electric irons are not an unusual provision, and gas ranges for coking are the rule rather than the exception.

"The idea that everybody who could afford to drive an automobile could afford to be robbed by the local tradesmen is as dead as the dodo. Stores and supply stations have grown up around the camps. or are operated as part of the facilities which make the place attractive to campers, and in almost every instance the prices are kept down to the level set by similar enterprises in that city."

Mr. Lane's article is illustrated with views of Camp Grande, at El Paso, Texas, and of the Overland Park Municipal Camp Ground, at Denver, Colorado. He describes these camps in some detail, and also the beautifully located one maintained by Seattle, overlooking Green Lake.

These camps, as pointed out by Mr. Lane, are typical. Up and down through all the West are others—in Ogden, Salt Lake City, Missoula, Helena, San Bernardino, Reno, Santa Fe, Albuquerque, Phoenix, Portland, Los Angeles and elsewhere.

Some Interesting Facts

Lord Roberts, famed British general, had an ungovernable fear of cats.

Champagne was invented by Dom Perignon, a Benedictine monk, near the close of the 17th century.

Japan's navy now has about 500 airplanes, besides those used by the army.

On special occasions French families buy a small quantity of ice from a butcher or milkman, but its general use is confined to the wealthier class.

Secret societies of Italy are no longer permitted to wear masks in the streets or in public places.

Many Japanese mothers tie tags to their children, so that they may be identified when they wander from home.

Two Austrian scientists claim to have invented a flexible glass, which can be broken with the bare hands without danger.

ABOUT WOMEN

Miss Mable Johnson of East Greenwich, Conn., was left an estate worth $100,000 by John H. Ormsby, whom she nursed during his last illness. His relatives are contesting the will.

Mrs. Mary E. Durand is still an active telegraph operator in Cleveland at the age of 74, having served for 56 years. Four years ago she was offered retirement with a pension, but refused.

Mrs. F. W. Wolcott of Hamilton Ont., is the founder and president of the Ladies' Carry-On League of Canada, an organization devoted to the welfare of sick and disabled veterans.

Mrs. Louisa M. Cross of Fitchburg Mass., who was married at the age of 15, is now 36 and the mother of twenty children, all living.

Miss Dorothy Walker of Portage, Wis., is the first and so far the only woman district attorney in her state. In the prosecution of 3,000 cases she has had only two acquittals and one mistrial.

Mrs. Mollie Long of Cincinnati is an expert player on the mouth organ at the age of 73, having played it since childhood.

Miss Mildred Bruce of the Florida College for women has been elected president of the Southern Inter-Collegiate Association.

Mrs. Clara Senecal, aged 60, has been appointed sheriff of Clinton county, New York, by Governor Al Smith to suceed her late husband. A son will be her chief deputy.

Mrs. W. W. Remington, prominent club woman of Minneapolis, is among the women candidates for Congresss this year.

Mme. Suzanne Catherineau of Bordeaux won the open national shooting championship of France by making a score of 397 out of a possible 400.

Miss Kathleen Woodward, a former London factory girl, has written a life of Queen Mary, which has been approved for publication by Her Majesty.

Mrs. Lillie Beard and Mrs. Letitia Calhoun have both completed 50 years service in the Treasury Department at Washington.

Mlle. Augistine Touzet, who claims to be the oldest old maid in France, has had her hair bobbed at the age of 103.

Miss Violet Cordery of Cobham, Eng., made a world's record in Italy by motoring 15,000 miles at an average speed of 54 miles an hour.

Miss Vivian Bell of Louisville is said to be the only licensed woman steamfitter in the United States.

Miss Laura Edwards, waitress in a Newark restaurant, will shortly marry Prince Basil Mirsky of Russia, who was charmed with her manner in serving his meals.

Miss Mary Drake Coles of Summit, N. J. has had three paintings accepted for hanging in the Paris Salon, out of four submitted.

Mrs. W. C. Edinborn has been elected president of the Louisiana Railway & Navigation Company, to succeed her husband, who died recently.

Governor Miriam A. Ferguson of Texas has agreed to resign if she does not beat Attorney General Dan Moody 25,000 votes in the coming primary in which he is her opponent. Moody also agrees to resign in case he does not defeat Mrs. Ferguson.

Anne Nichol's comedy, "Abie's Irish Rose," has completed a continuous run of four years in New York, the longest ever recorded in America for consecutive performances.

Mrs Charlotte Pleshette of New York recently brought from Paris a mesh-bag. made of a million steel beads.

Miss Sarah I. Bolles is executive secretary of a New York firm of accountants which has 29 offices in America and abroad.

Miss Freda Bliss, 19 years old, of Mansfield, Mass., runs the largest chicken hatchery in New England, with an output of more than three million chicks a year.

By a new process, color printing may be done without using a seperate plate for each color.

About 850 playhouses are now operated by the great Shubert system of theatres.

More than 2,000 patents covering radio appliances are now pending in Washington.

With three wheels instead of four, a new roller skate invented in England weight only 15 ounces.

LEGION TO CELEBRATE INDEPENDENCE DAY

Simultaneous ceremonies throughout California and the nation are to be held under the auspices of the ten thousand odd Posts of the American Legion on the afternoon of Sunday, July 4, in observance of the 150th anniversary of the adoption of the Declaration of Independence, Allen B. Bixby, state commander of the Legion in this state, has announced.

The ceremonies are to be timed so that they will be held as nearly as possible at the exact minute when the declaration was adopted. Tradition fixes 4 o'clock in the afternoon as the time of the adoption, according to Commander Bixby.

The roll of the signers of the Declaration is to be called as the principal feature of the ceremonies, and then the Legionnaires are to join in repeating America's creed:

"I believe in the United States of America as a government of the people, by the people, for the people; whose just powers are derived from the consent of the governed; a democracy in a republic; a sovereign nation of many sovereign states; a perfect union, one and inseparable; established upon those principles of freedom, equality, justice and humanity for which American patriots sacrificed their lives and fortunes.

"I therefore believe it my duty to my country to love it; to support its constitution; to obey its laws; to respect its flag; and to defend it against all enemies."

WANT TELEPHONES IN ALL BANK VAULTS IN CHICAGO

An ordinance has been introduced into the city council of Chicago requiring that telephones shall be installed in every bank vault in the city. Recently a clerk employed in the City Hall building was locked in a bank vault for several hours and was not released until the night watchman happened to hear a frantic pounding on the door of the vault. If there had been telephonic communication with the outside office his release would have been immediate.

Interconnection of power systems in California proved to be an economic factor, resulting in greater distribution of power when and where needed.

Thru interconnection, California Power Companies have been able to pool their power supplies for the benefit of the entire state.

This interconnection makes possible the delivery of hydro-electric power during dry seasons into sections that would be without power or dependent on expensive steam generated power.

The business initiative and enterprise of these companies continually aids state development.

Since 1913 the average per capita cost of living increased 65%, while the average cost of electricity decreased 8%.

RADIO

C. Francis Jenkins, Washington Man, Who Invented Attachment That Reproduces "Movies," and Another That Draws Pen Pictures.

"Movies over the air is the next great achievement of radio engineers!

Moving pictures will flash across the continent at the dizzy speed of 186,300 miles a second, the speed of light, And they will appear on a screen in natural colors in the homes of millions of radio users.

The introduction of the radio-vision receiving set heralds a new era for radio science!

An unpretentious cabinet converts radio waves into light and shadows.

This remarkable transformation is accomplished by means of a lamp contained in the box. This lamp lights and extinguishes a half million times a second.

A disk or ring, containing small lenses around its outer edge, is contained in this box. The purpose of this disk is to chop up the light and shadows into lines and adjacent successive lines.

Motor in Set.

A small electric motor, likewise contained in this box, revolves the lens-carrying disk.

A white screen, which may be held in a small picture frame, is placed on the wall receiving the motion picture.

The light from the lamp inside of this box, or small cabinet, is reflected onto the miniature screen through a simple arrangement by means of a prism reflector, placed on top of the box.

In this way the receptionist can switch from hearing his favorite orchestra to watching it play. Or he may hear it and watch it at the same time.

C. Francis Jenkins is the inventor of the lamp which performs the wonderful task of transforming radio waves to light and shadows by lighting and extinguishing itself a half million times a second.

"Modern Aladdin Lamp."

This marvelous globe has earned for itself the name of the "modern Aladdin lamp."

The Jenkins radio-vision lamp operates on the Wheatstone bridge principle, whereby a little change in electric voltage gives a large change in light flux or flow.

This lamp bears a relation similar to the function performed by a sensitive mineral used at the radio-vision transmitting station.

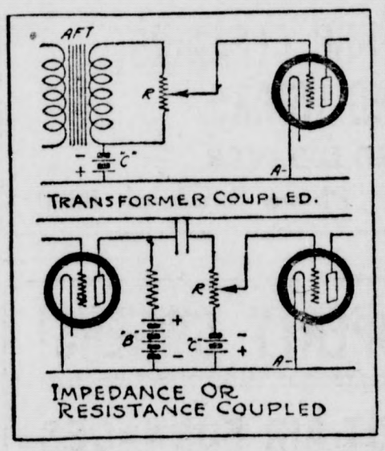
This sensitive mineral—potassium, for instance—converts the motion picture at the sending station into electrical values for transmission on a radio carrier wave.

The Jenkins radio-vision lamp reverses this process, changing the electric current back to picture values.

Once motion pictures by radio are introduced into thousands of homes, this lamp will be as commonplace as the electric light bulb or radio vacuum tube.

An Approved Method for Smooth Volume Control

For a smooth control of volume in amplifiers using transformers, impedances or resistances, the method shown in the accompanying diagrams is suggested. A variable resistance is connected across the secondary of



the transformer with the slider arm wired to the grid of the tube. In the case of impedance or resistance amplifiers, the grid leak is replaced by the variable resistance of .5 megohm maximum, such as the centralab modulator or others of the type.

Boy Walks Forty Miles to See Radio Artist

A striking illustration of the interest the general public takes in popular radio entertainers occurred recently when a thirteen-year-old boy walked and "hooked rides" all the way from Northfield, Minn., to Minneapolis, a distance of 40 miles, in order that he might see what Jack Little, who was broadcasting from WCCO that week, looked like.

The youngster, who gave his name as Richard Davis, fainted from exhaustion when he reached the WCCO studios. He was given first aid by Announcer Paul Johnson, who, in addition to his radio work, is a student of medicine at the University of Minnesota.

The lad was then introduced to Little, and judging from his expression, he felt that meeting this famous singer was worth his long trip. He says that he and some other boys have had very many arguments as to what Little looked like and he had decided to find out for himself. There being no school on Saturday, he started for the Twin Cities early in the morning. Because he had no money he was forced to walk part of the time and pick up rides the remainder of the way.

FOR YOUR NOTEBOOK

Use good insulators and solder all connections in the aerial.

Headphones should be bought for their ampere turns and not the resistance.

Buried metal plate or pipe driven in moist earth can be used as the ground.

Metal dials usually increase the microfarads.

A common cause of distortion in audio amplification is poorly designed transformers.

The length of the aerial is measured from the extreme end, and includes the lead-in and ground wire.

Radio signals are better 600 miles from a broadcast transmitter than they are 300 miles, because fading is less and the signal strength is slightly greater.

One way to stop a radio nuisance—a neighbor who permits his set to oscillate continually—is to have a petition signed and sent to the supervisor of radio in the district.

Nearly all interference producers are of the regenerative type in the hands of an inexperienced operator.

It is needless to expect good work from a set unless the prongs of tubes are making absolute and firm contact with the tube socket springs. The least looseness of contact means trouble.

Antenna and ground leads to the set should be as far apart as possible. Keep one at right angles to the other if you can.

When You Select New Tubes for Amplifiers

In impedance-coupled audio-frequency amplifiers, impedance-coupled radio-frequency amplifiers and resistance-coupled audio-frequency amplifiers, the amplification obtainable from the entire system is dependent upon the amplification constant of the vacuum tubes employed. Standard vacuum tubes with an amplification constant of approximately eight will not produce best results. Greatest amplification will be obtained when "Hi-Mu" tubes or high amplification constant tubes are used. Tubes with amplification constant of 20 are now available.

To Get Low Waves

When your set won't tune to the short wave lengths, try disconnecting the aerial at the point where it enters the house and using as an antenna the piece remaining. This cuts the fundamental wavelength of the antenna system, which also includes the ground.

CALIFORNIA NEWS BRIEFS

"Development of power in the mountains and making other uses of the water resources of the Sierra Nevada mountains is the key to development of the San Joaquin valley." The speaker is Harold K. Fox, construction engineer of the San Joaquin Light and Power corporation at Fresno and head of that company's huge power-building work now in progress just beyond the eastern edge of the flat, fertile Garden of the Sun. This great undertaking is known as the Kings river project. It is designed to develop approximately 500,000 horsepower, or nearly three times the present capacity of the entire San Joaquin system. It will embrace nine power plants fourteen dams of various types, nearly forty miles of tunnel, and a system of high tension transmission lines.

H. R. Braden and Charles L. Heartwell of Chico with State Architect George B. McDouglass, of Sacramento visited the Chico State Teachers' college at Chico, recently, and discussed with Charles M. Osenbaugh, president of the college, the budget for the college for the next fiscal year. The sum asked for is $25,000 for repairs and improvements to present structure and $100,000 for a new building. The new building is occasioned by the inadequacy of the present library room, lack of conference room for the faculty, need of a home for the English and dramatic departments and the president's private office is too small. The repairs include new and larger boilers, enlarging the engine house and other improvements.

Stating that traffic officers are vested with authority to make arrests for violations of traffic laws, Will H. Marsh, chief of the state division of motor vehicles, said none of the 210 motorcycle patrolmen and inspectors employed by his division would be deputized as "dollar-a-year" prohibition agents under the new federal dry enforcement plan. "The authority of the state traffic officers to make arrests for violations of other than traffic laws is simply that invested in any private citizen," Marsh stated.

An architect has drawn plans for a $70,000 hotel building on the Victory highway at Ryde, Sacramento River point. The building will cover a space of 80x80 feet, and will be four stories in height, with fifty rooms. Concrete and California stucco in construction, the building will be in the Spanish-California style. Thoroughly modern equipment will be used. An unique feature will be the arrangement of the basement so that automobiles may be driven into the building in rainy weather.

When Luther Burbank, late plant wizard, perfected the spineless cactus a large lot at Santa Barbara owned by S. G. and J. L. Kelley, was planted to the desert growth and thousands of persons marveled at the plant that grew without thorns and bearing delectable pears. In the last few weeks, since Burbank's death, spines have appeared on the cactus and recently the city of Santa Barbara served notice on the owners of the patch to destroy them as weeds.

"One of the most important factors in agricultural economics is legislative apportionment and it is vital that a considerable farm weight be maintained in the assembly to assure a proper balance with that of the cities." This statement was made to over 500 persons who thronged Stevinson Grove at the annual Merced Farm Bureau picnic. The speaker was Earl Houghton, president of the California State Farm Bureau Federation.

The opening gun was fired in protest of the United States Bureau of the census estimates of Sacramento's population recently by the Sacramento chamber of commerce directors, when they appointed E. C. Porter, secretary-manager, to select special committeemen to look into the matter. The census estimate places the population at 73,400, while all available figures in that city show that it is in the neighborhood of 100,000.

Alpine county has fewer school teachers than any other county in California and a higher standard of training for its instructors, Miss Georgiana Carden, state school attendance supervisor, reported to Will C. Wood, state superintendent of public instruction. She said 100 per cent of the Alpine county teachers are college graduates, adding, however, that there are only three of them.

A thorough survey of Tehama county with a view to the fuller development of its agricultural and industrial resources is to be made by the Red Bluff Achean club. Five months will be devoted to the study, at the end of which it is hoped to have data of important value in promoting the prosperity of the county.

The city of Lindsay is planning to increase its water supply with the immediate drilling of a new well on a twenty-acre tract just north of the city limits. It will be drilled to a depth of at least 400 feet.

At a preliminary get together meeting of the Yolo County Republican Central committee in Woodland, during a banquet the committee expressed itself as desirous of recommendations which would repeal the present county government act to raise the salaries of underpaid county officials.

Carriages of the vintage of another generation, long reposing dust-covered in an old livery stable at Grass Valley ,Nevada county, are soon to be giving atmosphere to screen productions. The whole lot were purchased by moving picture interests and ordered shipped to Hollywood.

What is to be known as the California Apricot exhibit will be held at Moorpark July 21 to 24.

Construction of a new $100,000 St. Joseph's Catholic church at Bakersfield will begin within a short time.

The Carlsbad farmers recently organized a farm bureau unit to help them solve their avocado, bulb and vegetable problems.

Dream of the Visalia chamber of commerce is being realized with construction of two strictly modern auto camps near Visalia.

The city of Lindsay has purchased twenty acres north of town for a park, with swimming pool, playgrounds and gardens.

Street improvements which will cost a total of $500,000 are rapidly nearing completion at the town of Girard in the western San Fernando valley.

Real estate brokers and salesmen of Santa Maria have organized a real estate board founded on the basis of local, state and national affiliations.

Orange County Ice company is planning for the erection of a new plant at Fullerton, according to reports given out. The plant will cost $15,000.

The annual fiesta was held recently at Fontana in commemoration of the founding of one of the world's greatest diversified farms thirteen years ago.

Herbert L. Reed, member of a law firm of Oakland, has accepted the position of adviser and head of the State Real Estate association's legal department.

Fifty varieties of roses in full bloom in the garden at the home of Mrs. Frank Marshall, two miles southwest of Graton, Sonoma county, is a beautiful sight.

An allotment of $2,500 has been made by the national park service for a preliminary survey relocating the Big Oak Flat road between Harden Mill and Yosemite valley.

Louis Meyer, publisher of the Oakdale "Leader" at Oakdale, was elected treasurer of the California Press association at the annual meeting in Eureka, Humboldt county.

Vern W. DeTar, who has been serving as assistant farm adviser of Imperial county for the past four years, has been selected as the successor of E. L. Garthwaite as farm adviser.

Mrs. Julia Rablin, who was buried at Dutch Flat recently, after her death in Oakland was one of the oldest pioneers of Placer county. She had resided in Dutch Flat for fifty-eight years.

Eli Whitney Collins of Arkansas was elected president of the Motion Picture Theater Owners of America at the closing business session of the organization's seventh annual convention in Los Angeles.

The residents of the little mountain community of Kaweah, Tulare county, have won their fight for a postoffice. The order closing the office last fall has been rescinded, and the tiny mail station has reopened.

An architect has been commissioned to prepare plans for a high school building for the South Fork Union High school district. It will be erected at Garberville, Humboldt county and will cost about $90,000.

The Bank of Italy building, under construction at Oroville will be completed and ready for occupancy in two weeks, it was stated by the contractor. The building is erected at a cost of approximately $75,000.

The rooms which the Masonic lodge has occupied at Yreka for the past fifty-five years are to give place to a new and modern temple, the contract for which has just been let. It will be a two-story concrete building and will cost $55,000.

Tulare county is showing great presperity this year. Abundant rains and sunshine have demonstrated the generosity of nature toward this section. Almost every phase of activity shows healthful symptoms, and the year promises to be fruitful.

Toots, the original Marshall monument cat brought to Coloma, Eldorado county, by Billy Miller, the first guardian, is still alive although now 21 years of age, according to Mr. and Mrs. Galen W. Morrill, present guardians of the monument. Toots is declared to know when Sunday arrives. He retires to the attic of the park lodge and remains there until the last motorist has departed.

Mount Diablo, devil peak and long silent volcano hill of the Coast range will spout fire again. The "eruption" is scheduled for the evenings of June 18, 19 and 20, when colored fire will be touchmed off at the peak. The "outburst" is planned as a feature of the Diablo valley apricot festival and celebration of the new San Joaquin valley bridge opening, to be staged at Antioch.

With the arrival at Coalinga, Fresno county, of Vern C. Gorst, owner of the Pacific Air Transport company, with which the government has contracted for the air mail service for the Pacific coast north and south route, the Coalinga Chamber of Commerce believes that the city of Coalinga has been selected as a refueling and service air port of the Seattle to San Diego route.

Stockton High School's experimental farm, unique in California and believed the first of its kind in the United States, was formally opened at a meeting recently, attended by officials of the state department of agriculture and Stockton public officers, school board members and representatives of civic organizations.

Herbert Wering, 17, Hollywood, who made fewer and milder oratorical gestures than any of the six other contestants, won the third national oratorical contest at Washington, recently. Vice-President Dawes presented the cup

The AMERICAN LEGION

(Copy for This Department Supplied by the American Legion News Service.)

30,000 LEGION MEN WILL GO TO FRANCE

The American Legion convention in France next year will be the most representative national convention ever held by the Legion, according to Bowman Elder, chairman of the France convention travel committee of the Legion.

"It is significant that the convention is to be held on the tenth anniversary of the entry of the United States into the World war," Mr. Elder said. One of the principal objects in holding the convention abroad is to enable the former doughboys to visit the American battlefields in France and to enable them to pay homage to the thousands of their former comrades who now lie buried in the soil of France.

"It will be a great pilgrimage, behind which there lies a high and sacred patriotic purpose, the resolve to rededicate the American Legion and its memebrship to the ideals of freedom and democracy, the same ideals for which those who are today buried in France died and which inspired the organization of the Legion ten years before."

Mr. Elder explained that though 30,000 veterans would be taken to France on the Legion pilgrimage, making the crossing in 24 luxurious ocean liners, this would probably be less than the number of those who actually wanted to go. In order to give everyone an equal chance, definite quotas were to be assigned to each state, based on membership of the Legion in any particular state during the year 1926.

"The Legion is further particularly anxious to make it possible for the men of moderate means who could probably never afford to go to France as a regular tourist to join the Legion expedition," Mr. Elder declared. He explained that on behalf of these men a campaign had been inaugurated by the France convention travel committee to obtain the co-operation of employers in granting extra vacation time in 1927. It will require at least four weeks to make the trip to France and back.

"Many Legionnaires who want to go to France feel that it is futile to save their money unless they can obtain the necessary extra vacation time," Mr. Elder declared. "We are therefore trying to assist them by bringing their problem to the attention of employers in all parts of the country.

"Wherever this has been done, we have received the heartiest co-operation. A number of large corporations have already issued bulletins in which they promise their employees who are ex-service men an opportunity to obtain at least four weeks vacation in 1927. Employers' associations in all sections have given it the stamp of their approval."

The cost of the trip will be within the reach of almost all veterans, Mr. Elder pointed out. The lowest inclusive rate which will provide transportation both ways on the Atlantic, hotel in Paris and trips to American cemeteries and American battlefields will be approximately $175. The entire trip, including all expenses can be easily made for as little as $300, he declared.

League of Nations Post Officially Chartered

The smallest post of the American Legion was officially chartered recently at Geneva, Switzerland, seat of the League of Nations, and will be known as League of Nations post. The post is composed of four members.

Each of the members of the post is permanently associated with the secretariat of the league.

At present there are just enough members to officer the post, including a sergeant-at-arms.

The post commander, Howard R. Huston of Minot, N. D., is the chief of the internal services of the league. He is known as "the man who died and came back." He was once officially listed as dead after having been seriously wounded at Chateau Thierry.

But he later staged a comeback, entered the St. Mihiel action and went on through the Argonne and later became director of athletics and entertainment for the A. E. F.

The post has unanimously voted to put at the disposal of the Legion's world peace and foreign relations commission "all the special facilities the post might possess by reason of the fact that it is situated at the seat of the League of Nations and all of its charter members are officials of the league."

Diplomatic Kid

"Listen here, young man," snorted the ten-year-old's father. "One more question out of you and you go to bed!"

Followed five minutes of silence. Then:

"Dad?"

"Young man!"

"Dad, what was it you made the Briarmoor course in last time?"

"Oh—eighty-two, and that was a remarkable score for that course, too if I do say so, because—etc.—etc.—"

BIRTH OF THE FLAG

On June 14, 1777, in response to a general demand for a distinctive national fag for the new Republic of the United States, congress passed an act providing as follows:

"That the flag of the United States be thirteen stripes of alternating red and white; and that the union be thirteen stars, white, on a blue field, representing a new constellation"

In this flag the stars were arranged in the form of a circle, and after the admission of Vermont and Kentucky the number of stars and stripes was each increased to fifteen. In 1818, five additional states having been admitted, the flag was changed to its present form, thirteen stripes with a star for each state. The exact size and arrangements of the stars were not definitely fixed until October 19, 1912.

According to tradition, Betsy Ross of Philadelphia made the frst flag bearing thirteen stars and thirteen stripes, but there is some uncertainty regarding the origin, as well as the first use, of the new national emblem. Another tradition is that it was first used by the army at Fort Schuyler, New York, August 3, 1777, where the flag was made on the spot, white stripes and stars cut from soldiers' shirts, red stripes from a soldier's wife's petticoat, with blue field cut from Captain Swartout's coat.

It is also recorded that the flag of John Paul Jones' ship Ranger, the first ever to be saluted by a foreign fleet, the French, was made from slices taken from their silk dresses by girls of Portsmouth, New Hampshire, the white stripes being from the wedding gown of a recent bride.

In commemoration of the adoption of the flag by congress, June 14 is celebrated throughout the nation as Flag Day, this observance having been fostered by the Benevolent and Protective Order of Elks, among whose lodges it was made obligatory in 1908. It is most fitting that this occasion should serve to mark a renewal of allegiance to the flag.

The "Pledge to the Flag," taught and repeated daily by pupils of many schools, is as follows:

"I pledge allegiance to the flag of the United States and to the Republic for which it stands, one nation, indivisible, with liberty and justice for all."

RADIO TIMEPIECES

In a recent interview, Olof Ohlson, chief engineer of the Waltham watch factory, made the interesting prediction that watches of the future may be run by radio impulses sent out by a broadcasting station.

Mr. Ohlson is quoted as saying that "the time may not be very remote when we shall be able to transmit energy by this means to operate watches without the aid either of a mainspring within them, or of a local battery."

Should this prediction prove true, it will mark another ephocal advance in horological science, which had its beginning in the ancient sundial. The sundial was perhaps the only instrument employed for time-keeping from the dawn of civilization until the invention of the water clock, ascribed to Plato, about 400 B. C.

Clocks were not invented until many centuries later. While a primitive instrument, called the horologium, is said to have been devised in the ninth century, A. D., the earliest clock of which any description has been preserved is one made in Egypt about the year 1232. A beginning in clockmaking was made in Germany about 1364, the clocks being regulated by balances. The invention of the mainspring in 1500 and the pendulum in 1583 gave great impetus to clock making, and it is believed that the first watches were made shortly afterward. But the minute hand was not added until after the invention of the balance spring, about 1660.

Since that time, many improvements have been made, both in watches and clocks, until we have the almost perfect chronometers and other time pieces of the present.

While Mr. Ohlson's idea of a radio watch, which may be carried in the pocket while kept going through impulses from a distant station, may appear fantastic, the wonderful achievements already witnessed must inspire a belief in its possibility.

The staff of a Washington State College paper, called the "Yellow Jacket," was suspended because its stinger penetrated the skins of the faculty.

A Pittsburgh man bet he would kiss the first girl he should come to. It took half an hour for him to come to.

MUSCLE SHOALS DELAY

It now appears certain that no action toward the final dispostion of Muscle Shoals will be taken before congress adjourns, so that this long-standing question must remain unsettled for another indefinite period.

Committee after committee has been appointed to study and report on the various bids for the property, yet no committee has ever been able to reach a unanimous agreement, nor has any majority recommendation so far been able to command sufficient support to carry it through both houses of congress.

The influences exerted by conflicting interests and the mixing of politics with what ought to be a simple business proposition has created a situation which can only be viewed with utter disgust.

If any further proof were needed to convince the public of the impotence of congress to handle business on a large scale, its record with respect to Muscle Shoals should amply supply that proof.

Yet, there are some who would have the government engage in various other water power development enterprises, with money supplied by the taxpayers, and involving the creation of innumerable adidtional political jobs.

WORK FOR LOAFING ACRES

A loafer gives nothing to society. He is not an asset but a liability.

The same is true of loafing acres. So the question of profitable land use is becoming more and more important here in California as our logged-off lands increase. Already we have one and one-half million acres of waste forest land.

The lumber industry in the pine region of the Sierras and Coast range cuts over each year some 60,000 acres or more of forest. Some of this is on national forest lands, where by reserving thrifty trees and saving the young growth, a forest is maintained. But a large part is private land, where through clear cutting, the use of high power logging machinery, and carelessness with fire, the land is left with no start towards a new forest.

Idle forest lands pay no wages. They do not build prosperity. Our loafing acres must be put to work and kept at work growing forest crops, if we are to have permanent prosperity.

To do this several things are necessary. The forest crop must be properly harvested. Seed trees of valuable timber species must be left —not scrub stuff that has no market value. The young, growing trees must be protected from injury during logging. Natural reforestation must be encouraged. Forest fires must be prevented. And there must be a scientific revision of our forest tax laws.

WHY FLORIDA HAS HEADACHE

The Florida boom is growing flatter every hour. Out of innumerable holes the superheated air of inflated values and expectations is escaping with a great hissing noise, and the refrigerating plants can't supply the demand for ice to be placed on aching, feeverish brows. It had to come. The Florida reaction was just as inevitable as the headache that followed the deflation of the apple, orange, oil, mining, timber, railroad and other booms in the far West. In fact, Florida's headache was overdue.

Coming right down to brass tacks, Florida's principal, almost sole asset, is it's winter climate. Outside of moss covered trees in its swamps, Florida has no scenery worth a trip across the street to see. Compared with Puget Sound, Portland or a thousand other western districts, Florida is a dreary expanse of sand and marsh, without a distinguishing feature not made by man. Its timber wealth is small; it has no water power, coal or oil; except for sulphur and phosphate it has no mines; it has no foreign trade, no great commercial harbors, and its agricultural development is strictly limited, just as the West's agricultural growth is limited, by a market already over-supplied. Florida has the advantage of a comparatively short distance from its winter climate to the snow-bound homes of the bulk of the population. This advantage, however, could not supply sufficient pressure to keep the boom inflated. Nor was the winter climate equal to the task. Building houses and hotels for new-comers is not a basic, continuous industry; it goes to pieces the moment the stream of new-comers diminishes. And that's what happened to Florida's principal industry.

Here's hoping that the far West has seen the last of its numerous booms.—Sunset for July.

NO LACK OF WORDS

How often do we find difficulty in thinking of just the right word to express a certain idea? Even the greatest writers must often stop to weigh their words in order to hit upon the most appropriate one, while few speakers can observe all the niceties of expression without writing out their speeches and memorizing them beforehand.

These difficulties are not due to any lack of words in the English language, however. Possibly it may be a result of our having too many to choose from. The latest unabridged dictionaries contain more than 400,000 words, and the list is increasing constantly.

Noah Websters' first dictionary, published in 1828, contained only about 70,000 words; the edition of 1864 included 114,000; that of 1890 about 175,000, as compared with the 400,000 recognized words of today.

Yet President Wilson, who was one of the most gifted masters of English the world has ever known, in seventy-five different public addresses, used a total of 6,221 different words. In three of his published books, however, he used about 60,000 different words. This shows that vastly more words are used in writing than in speaking.

A leading lexicographer estimates that the educated person of fair ability understands on an average about 50,000 words, but uses only a small part of that number in either speaking or writing. The mass of the people know and use less than 8,000 words out of the 400,000 available.

An interesting experiment is to inspect a few pages of an unabridged dictionary and count how many words out of a hundred you are really familiar with, both as to spelling and meaning. Try it.

THE TIPPING CUSTOM

While many attempts have been made to eradicate the practice, even by the passage of laws, the tipping habit persists, through lack of courage on the part of the public.

Originally, no doubt, the custom of giving tips to servants was inspired by kindly motives, but it has long since become a species of petty graft. Many employers of low-class help pay miserably small wages, with the knowledge that tips from customers will supply the deficiency. Employes accept the small wage with the same understanding. Consequently the public pays in the aggregate vast sums for which no service whatever is rendered.

The effect of the tiping system is wholly bad, as those who accept the gratuities must lose somewhat in self respect, while those who pay them do so simply because it is expected and they do not wish to appear stingy.

One restaurant noticed recently displayed a sign which read: "We pay our waiters living wages and do not permit them to accept tips." That sign inevitably caused patrons to hold a higher opinion of the proprietor and his waiters.

A GUARDED PROPOSAL

Lorenzo Dow, an American evangelist who went to Ireland in 1799 to endeavor to convert the Catholics of that country to Protestantism, was a bold spirit in many respects, but it appears that he was extremely cautious in matters in which women were concerned.

His tentative proposal of marriage, written to a young woman of his acquaintance, is a masterpiece of conservatism. He wrote as follows:

"If I am preserved, about a year and a half from now I am in hopes of seeing this northern country again; and if during this time you live and remain single, and find no one that you like better than you do me, and would be willing to give me up three years out of four to travel in foreign lands—for if you should stand in the way I should pray God to remove you, which I believe he would answer—and if I find no one that I like better than I do you, perhaps something further may be said upon the subject."

It is safe to say that the young lady could hardly have gotten a breach of promise verdict on the strength of a letter like that.

GIVING THE MOTORIST A REAL WELCOME TO CALIFORNIA

Until a couple of years ago, California seemed indifferent to the curses of the motorists who arrived in the Golden State from the North and East. Whatever gateways the touris chose, he encountered poor roads and rough going at the state line. The main route from the North was put into excelient condition two years ago; this year the gateway from the East via Salt Lake City and Ogden has been completed. Good roads now run across the Siskiyous in the north and the central Sierra in the east, while Nevada is working feverishly on the two highways, the Lincoln and the Victory, connecting with California's new mountain road. But in the South the roads crossing the desert to Needles and to Las Vegas are still temporary rough structures wholly out of key with the network of paved highways nearer the coast. These inter-state conections should no longer be neglected, even if it will cost an additional cent per gallon of gasoline to take care of them.—Sunset.

One's own praises are usually sung in a high key.

THE TWO MILE PIONEER PACE AND YOUR VACATION

If there is one piece of sound, 24-karat advice you should heed these vacation days, it's this: Slow down. Don't try to see everything, do everything, in two days, or even two weeks. Stop, look and linger. The foundations of the West were laid by men and women who traveled two miles an hour. They had no gravel and concrete highway to travel over, and when they reached their destination they did not sleep in hotels with circulating ice water and have breakfast in bed. Shelter, food, fuel, everything they needed they had to make with their own hands. It takes time to build a house, to raise a crop without help except the distant neighbor's. They did it in their two-mile-an-hour pace, yet they had time enough left to build the groundwork of the social organization that is the Far West of today.

Remember the pioneers. Fill your memory with sharp, clear-cut impressions of the country, of the people, of the flowers, trees and animals. Slow down during vacation time. Headlong speed brings exhaustion and accidents, but no adventures. Stop, look and linger not only at railroad crossings.—Sunset.

SIDELIGHTS

By Marcy B. Darnall

According to a press dispatch, a number of New Castle, Del., citizens have purchased caskets on the installment plan and will "use them as chests" until they are needed for permanent occupancy. The owners would hardly refer to them as hope chests.

Fred Hannah, negro of Elmira, N. Y., bent on marriage, found a way to circumvent red tape. Refused a license because his financee had a husband living, albeit in jail, Fred left the clerk's office in deep thought. He returned in two hours with another girl, secured the coveted document and married her.

Owen D. Young, co-author of the Dawes plan, is a keen observer of men and affairs as a recent utterance of his will indicate: "When unadjusted gears come into conflict, one set gets stripped; when man-made laws conflict with those of nature and science, there is not the slightest doubt which will strip the others."

Nature-fakers have flourished from time immemorial, but few have surpassed the author of a book on birds. published in London in 1703, who solemnly declared that birds migrated to the mon during winter, returning in the spring. He estimated that the trip took 60 days.

Eating hard-boiled eggs, plus anger, sets up poisoning in the system similar to that of toadstools, according to Ira Hilton Jones, noted chemist. Eggs should be eaten only when in a cheerful mood.

With an extremely delicate instrument, a French scientist claims to have measured the dimensions of the human soul. It is understood that he found some of them quite diminutive.

Despite the cynics, the still small voice of conscience is occasionally heard. The manager of a store in Steubenville, O., has received a $2 bill from a man who wrote: "I stole a duck from your stand some years ago, but have since been converted."

In a recent proclamation General Pilsudski told the Polish Army: "If you can not love me, at least you will have to respect me." Which recalls the famed remark of an American seargeant to a squad of recruits: "All I want out of you guys is respect, and damned little of that."

In 1895 the United States had over twice as many telephones as Germany. In 1925 the United States had over six times as many telephones as Germany.

NOTICE TO CONTRACTORS

Notice is hereby given that sealed bids will be received and opened by the Board of Trustees of the Jefferson Union High School District, San Mateo County, State of California, at 8:00 P. M. on the 19th day of June, 1926, for the erection and completion of a Manual Arts Building on the High School site in Daly City, San Mateo County, State of California, according to plans and specifications prepared for the same by W. H. Weeks, Architect, the authorized Architect employed by the Board.

Bids will be received as follows:

A price on the erection and completion of Manual Arts Building.

Plans and specifications may be seen at the offices of the Architect, W. H. Weeks, 369 Pine Street, San Francisco, or 1924 Broadway, Oakland, California; or at the office of the Principal of the High School in Daly City, California.

All bids should be presented on bid forms furnished by the Architect. Each bid must be accompanied by a certified check on some responsible California Bank in a sum not less than 5 per cent of the amount bid, made payable to the President of the Board of Trustees of the Jefferson Union High School District, which shall be forfeited to the said school district should the contractor, if awarded the work, fail to sign the contract within five (5) days after award and to furnish the required surety bonds.

Each bid must be delivered in sealed envelope and addressed to "Clerk of the Board of Trustees," and be endorsed "PROPOSAL FOR NEW MANUAL ARTS BUILDING."

The Board reserves the right to reject any and all bids.

(Signed) STELLA L. JENSEN,
Clerk of Board of Trustees, Jefferson Union High School District.

Colma News Notes

By SYLVIA HAUBRICH FISCHER

Louis Nava, Jr., who had his tonsils removed last week, is getting along nicely.

The health office has been opened in the new J. T. Casey building on Mission street.

Mrs. Jerry Horkey has recovered nicely from her recent operation, which is good news to her many friends.

Mrs. Annie Biggio and children, Ruth and Henry Biggio, of San Pedro avenue, visited relatives in Piedmont last Tuesday.

Mrs. B. W. Haubrich and Mrs. Stephen V. Fischer visited Mrs. George Martinelli and baby son at the St. Francis hospital last Tuesday.

Mrs. Pauline Parmisano and baby daughter Geraldine, of Crocker Tract, spsent one day of this week at the home of Mr. and Mrs. P. Benassini.

Nearly all local people attended the annual Vegetable Growers' picnic, which was held last Saturday in Niles canyon. All report having spent an enjoyable day.

A meeting of the alumni association of Jefferson Union high school was held at the home of Mrs. Tuttle, on Page street, San Francisco, last Wednesday evening. Mrs. Tuttle is a member of the faculty.

Mrs. A. P. Johnson will be in charge of a whist game at the parish hall of St. Maximus church on Wednesday, June 23, at 2 p. m. Come and make it a success. The proceeds will go towards the old Mission booth.

Mrs. Josephine Johnson, Grand trustee of the Native Daughters of the Golden West, and Delegates Sylvia Fischer, Laura Figone and Thelma Selmi will leave Sunday by special train for Sacramento to attend the Grand Parlor convention of Native Daughters of the Golden West. They will represent El Carmelo Parlor No. 181, and are confident that Mrs. Johnson will be re-elected as Grand Trustee

Miss Florence McKendrick is spending an enjoyable vacation on the Russian river

Six new homes are being erected in the Jefferson Park Tract, and many more will be built.

Miss Annette Lucey, of Crocker Tract, will entertain the members of La Fiesta Social Club at her home on Friday evening.

Fred Riccomi, of Oakland, was a dinner guest of Miss Erminia Biggio at the Biggio home on San Pedro avenue last Wednesday evening.

Mr. and Mrs. Robert Heeringa have returned from a week's vacation in Monterey and Capitola, making the trip in their new Ford sedan.

Mr. and Mrs. Al Zanetti (Louise Merlo) have returned from their honeymoon and are residing with Mr. and Mrs. J. Merlo, of Vale street.

Mr. and Mrss. Edwin Cuneo (Olga Selmi) returned last Saturday from their honeymoon and are making their home with Mr. Cuneo's parents in San Francisco.

Mrs. Annie Biggio and children, Ruth and Henry, of San Pedro avenue, will leave Saturday for their summer home in Fairfax, where they will spend the school vacation.

Mr. and Mrs. Edward Bauer, Misses Rosa and Emily Bauer, of Price street, returned home Monday evening from Colusa, where they spent the week end with Henry Bauer.

Miss Iva Garcia, who was married last week to Mr. Ewald Solback, was presented with a beautiful chest of silver at a dinner in her honor at Belli's Hall by the employes of M. Belli & Co., and the Belli Motor Co., where she was employed as a bookkeeper.

A large class of candidates were initiated into El Carmelo Parlor No. 181, Native Daughters of the Golden West, at their regular meeting which was held in Masonic Hall, Daly City, last Wednesday evening. The ritualistic work was performed by the officers of the Parlor, headed by Mrs. Margaret MacDonald. Following the business of the evening, delicious refreshments were served in the banquet hall under the direction of Chairman Annie Biggio.

Mark A. Devine, dearly beloved husband of Emma B. Devine, loving father of Captain James G. (U. S. A.), Lieutenant Mark A., Jr., (U. S. A.), Ralph, John, Everett and the late Thomas Devine, and brother of James P. Devine, passed away suddenly last Saturday, June 12, at Grenlawn cemetery. He was well known here, having been superintendent of the cemetery for many years. The funeral was held last Monday, a high requiem mass being said for the repose of his soul. He was a member of Olympus Parlor No. 189, Native Sons of the Golden West.

At a very pretty wedding solemnized at St. James church, Twenty-third and Guerrero streets, San Francisco, Miss Iva Garcia, bookkeeper at the M. Belli Motor Co., became the bride of Ewald Solbach. The bride was attired in a beautiful satin beaded gown, with long flowing veil. Thelma Selmi, the maid of honor, was gowned in yellow georgette, while the bridesmaids, Mrs. August Paul and Mrs. Effinburgers, were dressed in beautiful orange and coral georgette. The bride was given away in marriage by her father. A very fine wedding breakfast was enjoyed at the Whitcomb Hotel, after which the bride and groom left for a trip to the Yosemite, where they will spend two weeks. The bride received a number of beautiful wedding presents, one of which was a handsome chest of silver from the employes of M. Belli & Co. and the Belli Motor Co.

ANOTHER GOOD PROGRAM AT NEW STATE THEATRE

The management of the New State Theatre has booked another excellent program for the following week. Tomorrow (Saturday) Norman Kerry will appear in "Under Western Skies," a smashing action drama of the great open spaces, with a romantic heart-throb twist that will give you that glowing, warming, good-to-be-alive feeling, and the thrill of thrills when the tenderfoot rides the wild horse to victory in the great Pendleton round-up steeple chase. "Lightning Hutch" will also be presented, while Blanche Hertz's kiddies will entertain.

Sunday, June 20, "The Circle," in which Eleanor Boardman is the star, will be presented. Weak, unimaginative husbands; beautiful, lovesick and unhappy wives; dashing, adventurous and gallant family friends; these are the pivotal characters of "The Circle," the sensational society drama of the runaway mates and faithless confidants. On the bill will also be "The Scarlet Streak" and "What a Night" Comedy and Kinograms.

Monday and Tuesday, June 21 and 22, Lon Chaney in his greatest photoplay, "The Blackbird," a mystery thriller of the Limehouse district. Also "Adventures of Mazie" No. 5, and a comedy, "A Day's Outing."

Wednesday night, June 23, Lewis Stone and Shirley Mason in "What Fools Men." If you think you know all about how to handle the pretty ladies, just go to the State Theatre and see what one snappy, modern, 1925 peach could do with the wink of one beautiful eye. Eddie's Advershow, a riot of fun and laughter, will round out the bill. Don't miss Eddie's Advershow. It's simply great.

Thursday and Friday, June 24 and 25, another smashing Denny hit, "What Happened to Jones," starring Reginald Denny." A laughing whirlwind.

TELEPHONE STOCK OWNERS AWARDED SUBSTANTIAL SUM

A letter is being sent by the Pacific Telephone and Telegraph Company to all purchasers on the Pacific coast of American Telephone and Telegraph Company stock under the partial payment plan of the Bell Telephone Securities Company, advising them that a credit of $6.21 a share has been given their accounts in lieu of the "rights" that they would have received had they been actually stockholders of record on June 8.

This means that accounts in the Pacific coats territory totaling 5,407 shares will be credited $35,937.50, and, inasmuch as the contracts specify in each case that interest shall be paid at the rate of 5 per cent on all payments but all dividends and rights shall accrue to the Securities Company until the the stock is paid for in full, it is an unusual example of the generous treatment of the public under the plan of the Securities Company for the encouragement of thrift. In other words, the Bell Telephone Securities Company, instead of using the "rights" to which it is entitled as owner of the shares which it has already purchased for subscribers in the open market, has elected to dispose of the "rights" for cash and credit the accounts of its partial-payment subscribers with the proceeds.

The closing price of A. T. & T. "rights" on the New York stock exchange for each day of the "when-as-and if issued" market was taken, and and average of those prices was $6.21, giving the fair value to be credited to partial payment purchasers.

A purchaser of stock that has only made one payment of $10 a share receives the credit of $6.21 the same as those who have made many monthly payments.

Interest will accrue on the special credits from July 1.

Since May 20, 1,410 individuals have made application at the business offices of the Telephone Company in Washington, Oregon, California and Nevada for 12,277 "rights." In addition, since the first of the year 5,052 individuals in this territory have purchased 25,345 shares of A. T. & T. stock under the options of the Bell Telephone Securities Company, representing an investment of approximately $3,500,000.

All of this work is carried on by the Telephone Company without a single stock salesman, and no profit is made other than the intangible profit occasioned by a wide distribution of the stock and the increase in the prosperity of each community by the individual accumulation of capital.

The state of Michigan has more telephones than Austria, Hungary, Czechoslavokia, Italy, Jugo-Slavia and all of the Balkan states combined.

"Cling to your youth," iss Elinor Glyn's advice to girls. Sound, but entirely superfluous.

An Iowa man did not speak to his wife for a year; but possibly she gave him no opportunity.

PASSAGE OF FEDERAL AID MEASURE INSURES HIGHWAY PROGRESS

Good roads advocates throughout California are joining with the organized motorists of the state and nation in celebrating the passage by congress of the Dowell bill authorizing appropriations of $165,000,000 for federal aid highways for the two year period ending June 30, 1929. The measure is now in the hands of President Coolidge, and highway leaders believe that it will receive his signature promptly.

California will benefit to the extent of more than $3,000,000 annually from these appropriations, according to the California State Automobile Association, which took the leadership in organizing the Western states behind the campaign resulting in the passage of the bill.

Passage of this measure not only means better roads for California, but it also insures the continued development of transcontinental and interstate highways, particularly in the Western states.

The success of the bill also means easier access to the national forests of the West through the improvement of their roads and trails, and it definitely establishes the federal aid principle which provides for close cooperation between the states and the nation in developing a comprehensive system of improved highways linking every community in the country.

According to figures furnished by the United States Bureau of Public Roads, California's allotment from the $75,000,000 which will be made available in each of the two fiscal years, 1928 and 1929, for federal aid highways will amount to approximately $2,486,000 annually. In addition, from $7,500,000 annual appropriation for forest purposes, the United States forest service will receive approximately $680,000 annually for expenditure in major forest service highway projects in California. From this appropriation, another sum of approximately $345,000 annually will be available for the construction of forest roads and trails in California to be used primarily for forest administration and fire protection purposes.

These figures are based on the federal aid and forest fund allotments for the fiscal year ending June 30, 1927, which have already been made available for the use of the state highway departments, and the district foresters.

BOYS AND GIRLS

Ruth Horn of New York, aged 9, has just enrolled in high school, having completed her grammar school course in three years. Her teachers consider her America's outstanding child prodigy.

Herbert Kauffman of Atchison, Kan., gave a piano recital of twelve numbers played by ear at the age of three years.

Cora Price of Monmouthshire, Eng., aged 15, has attended school 10 years without being absent or tardy.

When bandits entered her father's store, 7-year-old Sophie Isenberg of New York, telephoned for the police but the robbers got away with $180.

Angeline Catazarite, of Milwaukee, daughter of Italian parents, weighs 170 pounds at the age of 6 years.

Hildegarde Carballera, a student at the University of Madrid, has completed three courses toward her bachelor of arts degree at the age of 11. The royal princesses Beatriz and Cristina recently presented her a prize for attainments in literature.

Miss Evelyn Nair and Vivian De Vaul, Sophomores in a Los Angeles high school, appear in the evenings as members of a musical comedy chorus at a local theatre.

Miss May Walkey of the University of Manitoba was awarded the governor general's gold medal for excellence in her first three years of work

Francis Lavallee, 5 years old, has run away from his home in New York twenty times this year, usually appearing at the headquarters of the Children's Society, where he knows toys will be given him.

Miss Elsie Weinstein won first class honors with the higest standing in Canada in recent examinations at the Toronto Conservatory of Music.

Brynmor Jones, 16-year-old Welsh lad of Cardiff, has won 227 prizes, including five gold medals, in musical competitions.

Christine Monchieff of Jersey City is only five years old, but has crossed the Alantic ocean alone three times, having recently returned from a visit to her grandparents in Scotland.

Eddie Dyer of Auburn, N. Y., aged 8, is a promising violinist and recently palyed for President Coolidge at the White House.

Although she looks after nine younger brothers and sisters, their mother being dead, 15-year-old Sylvia Malagsi of Youngstown, O., has found time to write five stories and one song which have been sold to publishers.

Kohler Lobello, 13-year-old boy of Bryan, Tex., rides a steer four miles to school and return every day

Dollie Martin of Picher, Okla., aged 15, drives a heavy truck for her father, with whom she makes long trips hauling merchandise.

An apiarist deciares that his honey bees are worth their weight in gold, but we had rather have our trousers pockets full of gold.

Judge Kavanaugh of Chicago declared some time ago that there were 118,000 murderers at large, and so far no one has demanded a recount.

In proportion to population, Seattle has over eight times as many telephones as Genoa, Italy, where Christopher Columbus was born.

No skin remedy has ever been found effective in a case of itching palm.

CERTIFICATE OF CO-PARTNERSHIP

State of California, County of San Mateo.

We, the undersigned, do hereby certify that we are partners transacting business in this State, in the County of San Mateo, under the firm name and style of Pantaleoni Bros. That the names in full of all the members of such partnership are Vincenzo Pantaleoni, Joseph Pantaleoni, Vittorio Pantaleoni and Armando Pantaleoni; and that the places of our respective residences are set opposite our respective names hereto subscribed.

In witness whereof we have hereunto set our hands this 28th day of April, 1926.

Vincenzo Pantaleoni, residing at Colma, San Mateo County, California.
Vittorio Pantaleoni, residing at Colma, San Mateo County, California.
Joseph Pantaleoni, residing at Colma, San Mateo County, California.
Armando Pantaleoni, residing at Colma, San Mateo County, California.

State of California, County of San Mateo.

On this 28th day of April, one thousand nine hundred and twenty-six, before me, Angelo J. Scampini, a Notary Public, in and for the County of San Mateo, residing therein, duly commissioned and sworn, personally appeared Vincenzo Pantaleoni, Vittorio Pantaleoni, Joseph Pantaleoni and Armando Pantaleoni, known to me to be the same persons described in, whose names are subscribed to and who executed the within instrument, and they duly acknowledged to me that they executed the same.

In witness whereof, I have hereunto set my hand and affixed my official seal, at my office, in the County of San Mateo, the day and year in this certificate first above written.

(SEAL.) ANGELO J. SCAMPINI,
Notary Public in and for the County of San Mateo, State of California.

My commission expires April 27, 1927.
Pardini & Scampini, Attorneys at Law.

CHILDREN'S NURSE RESUMES HER DUTIES

Praises Lydia E. Pinkham's Vegetable Compound

"I have taken Lydia E. Pinkham's Vegetable Compound for some time and I would not be without it in the house. As I am a children's nurse, I have to be on my feet a great deal and your medicine has helped me wonderfully. I was hardly able to do my housework when I began taking it, and now I am a strong and well woman, able to do all that and go out nursing besides. I have also used the Sanative Wash and found it beneficial."—MRS. GERTRUDE L. STEWART, 103 Davis St., Greenfield, Mass.

Valuable for Weakness

"I have found Lydia E. Pinkham's Vegetable Compound a valuable medicine for weakness."—MRS. J. A. PIETSCH, Box 397, Lancaster, Pa.

Hundreds of letters like these are received by the Pinkham Medicine Co., Lynn, Mass. Grateful women from Pennsylvania to Washington, from Texas to Illinois and from Rhode Island to Nebraska say that their health has improved since taking Lydia E. Pinkham's Vegetable Compound.

ENJOY MANY COMFORTS ON CAMPING TRIP

The Morning Toilet in "Tin Can Camp."

The question, "What shall we eat, and what shall we wear, on our camping trip?" is answered in a bulletin issued by the touring bureau of the Chicago Motor club. "The motor camper who subsists on a diet of canned, powdered and dehydrated foods, is not aware of the latest developments in camping," says this bulletin. "The camper has cereal, grape fruit, toast and coffee for breakfast at home, why not have the same breakfast while hitting the gypsy trail? The cream for breakfast comes out of the refrigerator basket, the butter comes from this same basket, or from the tonneau or runningboard ice box. As for toast, nothing is easier to prepare when the camper is equipped with a collapsible camp stove.

"Campers now go equipped not only with ice chests, but with kitchen cabinets as well. The portable kitchen cabinets contain a score of compartments where salt, pepper, mustard, coffee, tea, spices, and various condiments may be carried. Pots, pans, and kettles may also be carried in the portable cabinet.

"The matter of proper clothing is as important as proper food. Those who can should wear wool next to the skin at all seasons, for wool is the surest protection from every whim of the elements, and it is not uncomfortable in warm weather, in fact the contrary is true. Silk stockings and cotton underwear have spoiled as many camping trips as uncomfortable beds. A 60 per cent wool garment is the sensible thing to wear in summer, for the wool insulates the skin against intense heat and also against the sudden chill that comes on after the sun has gone down in high altitude camping. Women should wear knickers or riding breeches, with oxfords and middies. Men will find khaki breeches, wool shirts, and puttees ideal for the camp and for long-distance driving."

STRAIGHT SHIELD IS ALWAYS BEST

Allows Light to Travel in Straight Line and Gives True Vision.

The strictly vertical windshield is best and safest.

That is the opinion expressed by Dr. Edwin H. Silver, president of the Columbia Optical company, and member of the motor vision commission of the American Optometric association.

"The laws of refraction and the laws of reflection should govern the construction of a windshield," Doctor Silver says. "Good vision, the ability to translate what is seen and the ability to act quickly are the three most vital factors in automobile driving.

Optics of Windshield.

"The optics of the windshield play an important part in the vision of the motorist. The surfaces of the glass must be parallel to each other and the thickness the same throughout, as otherwise you will get multiple images of an approaching object, especially a light.

"For this reason the windshield should be in a strictly vertical position, or at the utmost the slant should not be greater than 10 degrees. A greater slant than this causes the driver to see through an increased thickness of glass which, while small, serves to increase the internal reflections and to emphasize every defect or variation from parallelism of the surfaces of the glass.

"The prismatic effect binds the light rays, making the gauging of distance uncertain. Light travels in a straight line, which is broken by the slanting windshield and causes an approaching object to appear several feet distant from its actual course. The speed of the automobile makes the split second necessary to correct the effects of the false message to the eye of the most vital importance

Ideal Windshield.

"The ideal windshield is vertical in position, of the finest and most flawless plate glass and located so as to be about 20 inches from the eyes of the driver.

"The adoption of the narrow post on each side of the windshield is also one of the most forward steps taken by the manufacturers in recent years. You can obscure the sun with a pencil and see a baseball game through a knot hole. That explains, I think, why the wide post, with its greatly increased 'blind spot' is so much more of a menace than the narrower post."

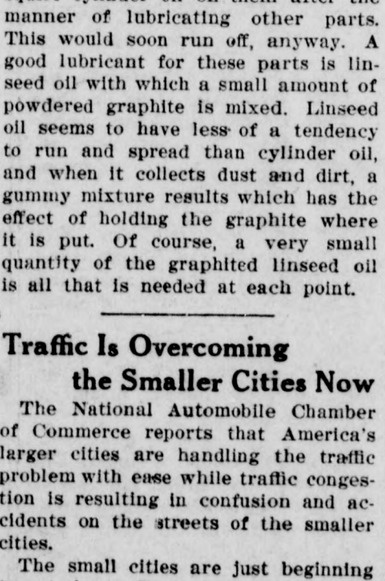
Avoid Left Side of Car When Stopping on Road

When stopping along the road don't sit on the left side of the car to rest. One is likely to lean out of the car to stretch and get struck by objects protruding from trucks and other cars. Most drivers will pass closer to a car that is stopped.

If camping and using the battery for lighting, park the car on a slight downgrade and block the wheels. When you are ready to go crank by allowing the car to coast in gear, thus saving the battery and starter.

Tampered Motor Numbers Detected by New Device

The police of Philadelphia the other day tested a device which makes it possible to detect whether the manufacturer's number of a motor has been



Testing for Tampered Number.

tampered with—after a chemical has been placed over the number, it is heated with an actelyne lamp, another chemical is then placed on it and in a photographic plate the original number can be seen.

Oil Hinges and Latches to Prevent Impairment

Automobile door hinges and latches are pieces of mechanism that, like anything else of the kind, require a certain amount of lubrication to prevent rust and the collection of dust and dirt in them. Squeaks are the result of nonattention to this detail at intervals. But due to these fittings being where clothing sometimes rubs against them, it is not desirable to squirt cylinder oil on them after the manner of lubricating other parts. This would soon run off, anyway. A good lubricant for these parts is linseed oil with which a small amount of powdered graphite is mixed. Linseed oil seems to have less of a tendency to run and spread than cylinder oil, and when it collects dust and dirt, a gummy mixture results which has the effect of holding the graphite where it is put. Of course, a very small quantity of the graphited linseed oil is all that is needed at each point.

Traffic Is Overcoming the Smaller Cities Now

The National Automobile Chamber of Commerce reports that America's larger cities are handling the traffic problem with ease while traffic congestion is resulting in confusion and accidents on the streets of the smaller cities.

The small cities are just beginning to get the traffic problem and are unprepared to handle the situation which is causing an unproportional number of automobile accidents in cities of less than 100,000 population.

The National Automobile chamber is urging civic bodies in smaller cities to conduct an intensive safety campaign to solve traffic difficulties and to prepare the citizens for the time when a larger number of automobiles will be in use.

LOOT!

BY ELMO SCOTT WATSON

Captain Worley's Short Career

THE career of Captain Worley as a pirate was a short but extremely busy one. Worley began his life as a pirate in September, 1718, when he assembled a company of eight desperate characters in New York, secured a small open boat, provisioned with a keg of water, a few biscuits, a dried tongue, six old muskets and a small amount of ammunition, and set out for Newcastle, Del.

There they seized a shallop, plundered it and returned to their own small boat in which they sailed back down the river and took a sloop belonging to a mulatto named Black Robbin. Then they abandoned their boat and sailed away in this sloop, but a few days later, having captured another sloop from Hull which was a better boat they changed to this one.

By this time the news of their exploits had spread all along the coast and the government was roused to action. H. M. S. Phoenix, a vessel of 20 guns, was sent in search of the pirates but in the meantime Worley had sailed for the Bahamas where he captured another sloop and a brigantine. By now the pirate leader had a crew of 25 men and a fast ship.

Off the Cape of Virginia the pirate sighted two sloops which he believed were making for the James river in an effort to escape from him. In reality they were armed vessels which had been sent out to hunt him down, but he little suspected that. He sailed his ship in between them to cut them off and broke out his black flag.

Upon seeing this the citizens of Jamestown thought that a fleet of three pirate ships had come to loot the town and they began hurried preparation to defend it. Then they were amazed to see the three pirate ships begin fighting among themselves. For some time the battle went on and Worley's freebooters gave a good account of themselves, even with the great odds against them. Then the fighting became hand to hand, and the pirates, except the captain and one other, were killed. The two were desperately wounded but they lived long enough to be placed on trial and convicted the next day. Then they were summarily hanged before death from their wounds could save them from just punishment.

"Yo-ho-ho and a Bottle of Rum!"

IT PROBABLY never was sung by any authentic pirate "in good and regular standing" for its author, Young E. Allison, wrote it long after the heyday of piracy had passed. But the words "pirate song" conjure up to the average person but one picture and unconsciously there runs through his mind this refrain: "Fifteen men on the dead man's chest; yo-ho-ho and a bottle of rum!" Here are the words of that immortal song:

Fifteen men on the dead man's chest—
"Yo-ho-ho and a bottle of rum!"
Drink and the devil had done for the rest—
"Yo-ho-ho and a bottle of rum!"
The mate was fixed by the bos'n's pike,
The bos'n brained with a marlinspike,
And Cooky's throat was marked belike
It had been gripped
By fingers ten;
And there they lay,
All good dead men.
Like break o' day in a booking ken—
"Yo-ho-ho and a bottle of rum!"

Fifteen men of a whole ship's list—
"Yo-ho-ho and a bottle of rum!"
Dead and bedamned and the rest gone whist!
"Yo-ho-ho and a bottle of rum!"
The skipper lay with his nob in gore
Where the scullion's ax his cheek had shore—
And the scullion he was stabbed times four.
And there he lay
And the soggy skies
Dripped all day long
In upstaring eyes—
At murk sunset and at foul sunrise—
"Yo-ho-ho and a bottle of rum!"

Fifteen men of 'em stiff and stark
"Yo-ho-ho and a bottle of rum!"
Ten of the crew had the murder mark—
"Yo-ho-ho and a bottle of rum!"
'Twas a cutlass swipe, or an ounce of lead,
Or a yawning hole in a battered head—
And the scuppers glut with a rotting red.
And there they lay—
Aye, dawn my eyes!—
All lookouts clapped
On paradise—
All souls bound just contrariwise—
"Yo-ho-ho and a bottle of rum!"

Fifteen men of 'em good and true—
"Yo-ho-ho and a bottle of rum!"
Every man jack could ha' sailed with Old Pew—
"Yo-ho-ho and a bottle of rum!"
There was chest on chest full of Spanish gold,
With a ton of plate in the middle hold,
And the cabin's riot of stuff untold.
And they lay there
That had took the plum,
With sightless glare
And their eyes struck dumb,
While we shared all by the rule of thumb—
"Yo-ho-ho and a bottle of rum!"

Fifteen men on the dead man's chest—
"Yo-ho-ho and a bottle of rum!"
Drink and the devil had done for the rest!
"Yo-ho-ho and a bottle of rum!"
We wrapped 'em all in a mainsail tight,
Wi' twice ten turns of a hawser's bight,
And we heaved 'em over and out of sight—
With a yo-heave-ho!
And a fare-ye-well!
And a sudden plunge
In the sudden swell,
Ten fathoms deep on the road to hell!
"Yo-ho-ho and a bottle of rum!"

Children Cry for Fletcher's CASTORIA

MOTHER:— Fletcher's Castoria is a pleasant, harmless Substitute for Castor Oil, Paregoric, Teething Drops and Soothing Syrups, especially prepared for Infants in arms and Children all ages.

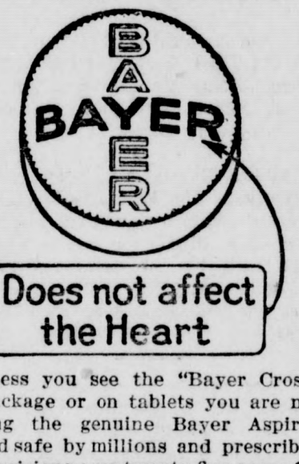
To avoid imitations, always look for the signature of Chas. H. Fletcher. Proven directions on each package. Physicians everywhere recommend it.

Rich Soil in Hawaii

The Hawaiian islands are said to have the richest soil in the world.

"BAYER ASPIRIN" PROVED SAFE

Take without Fear as Told in "Bayer" Package



Unless you see the "Bayer Cross" on package or on tablets you are not getting the genuine Bayer Aspirin proved safe by millions and prescribed by physicians over twenty-five years for

Colds	Headache
Neuritis	Lumbago
Toothache	Rheumatism
Neuralgia	Pain, Pain

Each unbroken "Bayer" package contains proven directions. Handy boxes of twelve tablets cost few cents. Druggists also sell bottles of 24 and 100.

An intense hour will do more than dreamy years.—Beecher.

For speedy and effective action, Dr. Peery's "Dead Shot" has no equal. A single dose cleans out Worms or Tapeworm. 372 Pearl St., N. Y. Adv.

Curses on thee, little pest Filthy fly, unwelcome guest!

NO need to tolerate a single fly in your house. Flit kills flies.

Flit spray clears your home in a few minutes of disease-bearing flies and mosquitoes. It is clean, safe and easy to use.

Kills All Household Insects

Flit spray also destroys bed bugs, roaches and ants. It searches out the cracks and crevices where they hide and breed, and destroys insects and their eggs. Spray Flit on your garments. Flit kills moths and their larvae which eat holes. Extensive tests showed that Flit spray did not stain the most delicate fabrics.

Flit is the result of exhaustive research by expert entomologists and chemists. It is harmless to mankind. Flit has replaced the old methods because it kills *all* the insects—and does it quickly.

Get a Flit can and sprayer today. For sale everywhere.

Map Showing Towns Having Liberty Banks

Inter-Community Banking Facilities—

THIS BANK is one of 32 Liberty Banks which form a strong inter-community banking service covering Superior California.

Control of this institution is vested in Bancitaly Corporation, with a capital and surplus of over $69,000,000, providing a strong financial background for the entire system.

In addition each bank benefits by the accumulative experience of the officers of the whole organization.

The resources and experience of this entire inter-community banking organization are available to any branch at any time—assuring its customers the greatest degree of financial co-operation.

NEWS NOTES OF PERSONAL INTEREST

By MARC WORST

Mr. Meritt has begun the erection of a home on Vista Grande avenue.

Mr. and Mrs. S. Williams and family are spending two weeks in Los Angeles.

Fletcher Cook left Thursday morning for Turlock, where he will spend his vacation.

Mrs. S. Olmos, of Santa Rosa, is spending the week end with her sister, Mrs. P. Ross.

The whist which was held in the St. Maximus church hall on Wednesday was a great success.

Mrs. Griffin, of Winchester street, has left for a two weeks vacation at Cotati, where her sister resides.

Miss Ila Wilcox, of Alturas, is spending a couple of weeks with Dr. and Mrs. F. P. Callsen, 453 Santa Barbara avenue.

William Roberts, Fletcher Cook and Everett Rolff attended the San Mateo Junior College Men's Club formal last Wednesday evening.

Wesley Myer, of Vallejo, and Frank Wessel, of Galt, are spending their vacation with their uncle and aunt, Mr. and Mrs L. Ross.

Crocker Chapter, Order of De Molay, will hold a big whist and dance Thursday in the Masonic Hall. Admission will be 25 cents.

Mr. and Mrs. Rideout and family, of 58 Vendome avenue, have purchased a ranch and home in Mill Valley and moved there Saturday.

Mrs. C. Poket, acting city clerk, reports the following building permits: Gus Bloomquist, 391 Wilson street, five rooms and garage; 392 Wilson street, five rooms and garage.

Mrs. H. H. Smith has received word that her mother, Mrs. Hopman, of St. Helena, has suffered a paralytic stroke. It is sincerely hoped by her many friends that she will soon recover.

Leota Wagner, of Daly City, won the honor of being the youngest graduate in the history of Horace Man junior high school. Miss Wagner, who is only 12 years old, will enter Mission high next August.

The meter reading and bill distribution routes of the Daly City water department are being re-routed. This is done very two years to take care of our city's increased growth. Fred Junker is now assisting Mrs. Cook until the rush is over.

Mr. and Mrs. Peter Pavlos have returned from their vacation trip to Yosemite, and report having had a most wonderful time. Peter is reported to have won the hiking contest, having set a pace too fast for all the other contestants.

Marshal Doyle found an abandoned Ford roadster last Monday on San Jose avenue. The engine was running and one wheel had been broken when the car smashed into the curb. The owner of the abandoned machine has not been located at this writing.

A monster dance is planned by St. Maximus church, to be held on Saturday evening, June 26. Batt Scanlon's old time orchestra will furnish the peppy music. Admission will be 50 cents, and an unusually good time is assured everyone.

Clara Poket was presented with a silver loving cup Thursday evening of last week at the South San Francisco high school graduation exercises, a reward for the highest scholarship of any student during the past year. Miss Poket will enter her high Senior semester next August.

Bob Nelson, a former resident of Daly City, was in town the past week, visiting his parents and many friends. Bob is now a resident of Los Angeles, and is doing well down south, but he still has a warm spot in his heart for this section, and comes up occasionally to visit his mother and friends.

Mr. and Mrs. W. H Clay, former residents of San Francisco, are now residing at 65 Guadaloupe avenue, having decided that Daly City is a good place in which to make a permanent home. Mr. Clay is an attorney at law, practicing in San Francisco.

Christian Science services were held Saturday in the new mortuary chapel of W. C Lasswell & Co., for Miss Gertrude Kluth, 24 years of age, who passed away Thursday of last week at the San Francisco hospital after drinking poison. The remains were forwarded to Milton, Oregon, where the family of the deceased lives. She resided at the Palace Hotel, San Francisco.

James Hawkins, superintendent of sanitation, will return Monday after a two weeks' vacation.

T. Iverson, of 157 North Park avenue, is taking an enforced vacation, due to blood poisoning in his hand.

Professor Eugene Goudy, of 207 Hillcrest Drve, local music teacher, is up and around again after an illness of several weeks.

J. F. Dolan has installed a 280-gallon gasoline tank and pump on his premises to better take care of his fleet of machines.

John and Louis Dienck will leave tomorrow (Saturday) for Boulder Creek, where they wil spend a month at the Columbia Park Boys' Camp.

Mrs. D. T. Bentley and Mrs. G. C. Golden spent Wednesday at Alum Rock with four little Daly City Misses: Florence Mayer, Edna Spangler, Rhoda Sellick and Dolores Golden.

It is announced by the city marshal that a vigorous campaign is being waged against speeders, and that all motorists speeding or using open mufflers will be given "tags." This means business!

Marshal Doyle again issues a warning that any dealer selling fireworks will be arrested and prosecuted to the full extent of the law. It is also illegal to use fireworks in the city limits of Daly City.

City Marshal John Doyle started on a well earned two weeks vacation on Wednesday. William Hopman, the regular Sunday officer, will take over the marshal's duties for the fortnight that Doyle is enjoying his vacation.

Mrs. H. H. Smith, Evelyn, Edna, Irene and Hughie Smith and Harold Purser spent Sunday at Rutherford. While the remainder of the party returned to Daly City, Evelyn and Irene Smith will spend several weeks there with their aunt, Mrs. Kuebler.

Mrs. A. P. Johnson will be in charge of a whist game at the parish hall at St. Maximus church on Wednesday, June 23, at 2 p. m. Come and make it a success. The proceeds will go towards the old Mission booth.

San Francisco Children to Hold Pcinic

The annual picnic arranged by the Playground Commission for the children of San Francisco will be held July 4, it has been announced by Veda B. Young, the acting secretary of the commission. Children will be brought from all the other playgrounds of the city to the Glen Park playground scene of the picnic, by the playground directors, and in addition any who apply at the grounds will be welcomed. Each child will be required to bring his or her own lunch. The morning will be devoted to inter-playground games of basketball, baseball and volley ball, and the afternoon will be given over to races.

Two Sites For Flying Field

Two proposed sites for a municipal aviation landing field within the city limits of San Francisco are under consideration by the special supervisors' committee studying the matter and the Park Commission, it has been learned. One of the sites is suggested in the proposal that a level part of the Mission Park tract, near Silver avenue, be devoted to this purpose. The other is a 65-acre tract near the south line of the city in Bay View, on tidewater and east of the Bay Shore highway.

Roosevelt wrote "The Winning of the West." Wayne B. Wheeler appears ambitious to write "The Winning of the Wets."

For pulling sick men through, many doctors receive credit which ought to go to pretty nurses.

Nearly every home contains a bible and a mail order catalogue, but they are not read with equal avidity.

Iowa averaged 24,500 long distance calls each day during 1925.

NOTICE TO CREDITORS

No. 3856.

In the Superior Court of the State of California, in and for the County of San Mateo.

In the Matter of the Estate of Louis Lagomarsino, Deceased.

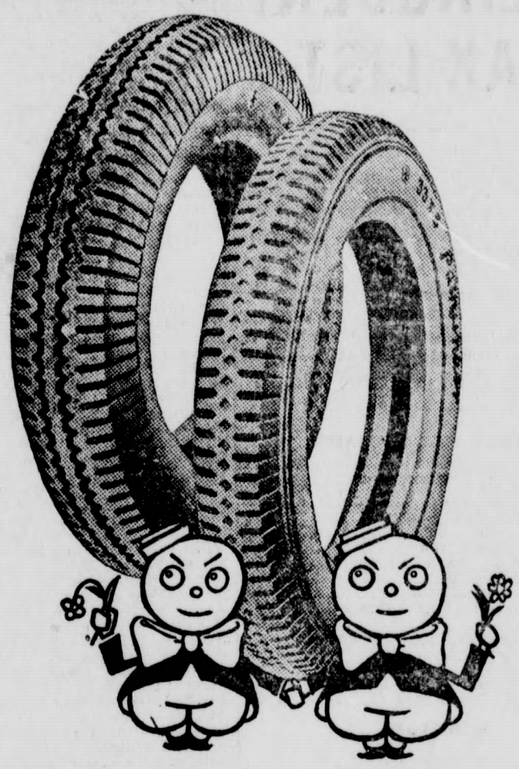
Notice is hereby given by the undersigned Alice Lagomarsino, executrix of the last will and testament of Louis Lagomarsino, deceased, to the creditors of and all persons having claims against the said deceased, to file them, with the necessary vouchers, in the office of the Clerk of the Superior Court of the State of California, in and for the County of San Mateo, or to exhibit the same, with the necessary vouchers, within four (4) months after the first publication of this notice, to the said executrix at the law offices of J. E. McCurdy, Wisnom Building, San Mateo, California, the same being the place for the transaction of the business of said estate in the County of San Mateo, State of California.

Dated this 18th day of June, 1926.

ALICE LAGOMARSINO,
Executrix of the Estate of Louis Lagomarsino, Deceased.

J. E. McCurdy, Attorney for Said Executrix, San Mateo, California.

First publication in Daly City Record, June 18, 1926.



Here They Are---
The Economy Twins

Pay your money and take your choice. In either case you'll show wise judgment in picking a Pathfinder.

Pathfinders are big, tough treaded, good looking tires—made in the world's largest tire factory for folks who've been trying to get long mileage out of low priced, unknown brands. No coaxing or coddling these babies. They deliver. The manufacturers guarantee 'em—and so do we.

We've got your size—when you want it—at a price so low you'll be surprised.
